

TECHNICAL SHEET – TAMANU TIKI 100% PURE OIL

Qualitative formula of product (INCI):

- Calophyllum inophyllum oil

Manufacture and control conditions:

The Tamanu nuts naturally grown in remote islands of French Polynesia are collected, then cracked to only retain the kernels which are sun dried. The oil is then extracted by cold press. This oil is organically grown and processed. Tiki Tamanu oil is 100% pure.

- Place of bottling: Tiki Parfumerie, PO BOX. 805 Faaa, Tahiti, 98713 French Polynesia
- System of quality assurance ISO 9001: version 2000 “Manufacture and marketing of Monoï and by-products” since February 2007
- Certification follow-up: AFAQ AFNOR

Chemical components:

Tamanu contains many chemical components proven to be helpful in the restoration and regeneration of skin tissue such as calophyllic acid, benzoic and oxi-benzoic acids.

Properties and directions of use:

This oil is traditionally used for a wide range of uses and particularly for its healing qualities. It is recommended for superficial wounds, sunburns, skin rash, insect bites ...

Apply on injured skin, or use as a massage oil.
